

Solid Timber Handrail
Technical Data Sheet

Product Name	Solid Timber Handrail	
Description	This sophisticated handrail is made from natural American White Ash or American White Oak wood, ensuring exceptional resistance to wear and tear and creating a beautiful warm wood aesthetic. With stainless steel wall brackets and endcaps, it is sturdy and durable enough for high-traffic environments. The handrail bar is distinct from the bottom profile to enable a secure grip and support easy cleaning.	
Sectors	Suitable for any high-traffic or high-impact environment, including: Healthcare facilities Education facilities Commercial buildings Retail environments Industrial facilities
